Environmental Technologies, LLC
Attention: Mike Brady
8075 SR 62 West
Chandler IN 47610

Subject: Letter of Reference

This letter is in reference to the professionalism and competency that were so evident from the staff of InTech at the Spring Special Collection Days for the Dearborn County Solid Waste Management District.

Once again the service provided was outstanding. Mike Brady's response to the unusually high volumes and unusual nature of the materials collected at this event was commendable. The crew remained friendly and hard working throughout, despite the conditions. In Tech's performance was first rate. They adjusted quickly and cheerfully, while remaining very conscientious of doing the tasks responsibly.

I feel very comfortable to recommend InTech for events such as this and I will be happy to answer any questions. I can be contacted at (812) 537-8757.

Yours very truly,

Barbara Ault
Director
